

BAEHR Foot Care device „TEC A 700“ – dry technology – lightweight, strong suction and hygienic light weight with professional features

Product description engine

Small - Quiet - Strong - Ultra-light

- extreme longevity, since all built-in motors are brushless
- brand new exhaust fan (German Premium manufacturer) with very low power consumption
- Multiple filter system for a pure Exhaust air (filter bag, coarse and fine filters)
- very easy filter bag change
- very high suction power due to strong brushless extraction turbine
- Noise-insulated barrel, very low noise level
- direct speed selection and light Speed determination for milling cutters
- speeds from 6,000 - 27,000 rpm. (8 steps), can be set in 1000 steps by pressing a button
- large LED display
- 2 memory functions for individual Storage of favorite settings
- Automatic display for required dust bag change
- Right / left rotation with LED display
- 6 selectable suction levels with LED display
- Extraction function separately switched on and off
- with handpiece rest right
- Maintenance interval display

Product description Handpiece

- Lightweight, slim, short, handy handpiece: weight only 102 g for fatigue-free working, outer Ø only 24 mm, the ergonomic shape fits very well in the hand, allows perfect working thanks to handy grooves in the handpiece head, also in pencil grip (only 125 mm long)
- On/off switch: simultaneous operation of the milling motor and suction (on the handpiece), thereby eliminating the need for an additional foot switch

Control Unit BAEHR TEC A 700

(Art.-No. 20700)

Connected load:	230 V / 50 Hz or 115 V / 60 Hz
Housing:	resistant to disinfectants
Noise level [in db]:	max. 56
Airflow max. power [in L/Min]:	250
Max. vacuum [in mbar]:	-70

Handpiece

Idle speed [rpm]:	6,000 – 27,000
Handpiece button	yes

- Quiet, high-performance micro-motor (brushless) with electronic readjustment and consistently consistent performance, even when working in the low speed range
- Fast cutter change due to automatic tension

- Optimally used suction power through „all-round“ extraction
- Dental suction hose extremely flexible and light-weight, with internal power cable (160 cm)
