

Instruction Manual

Thank you very much for purchasing our product.
This is widely used at home, office, workshop as well as a lot of other important places.
Before use it, please read the following instructions very carefully.

OPERATION:

1. How to use:

- A. Put the table base onto any horizontal surface.
 - B. Clamp the bracket to the edge of any horizontal surface.
- Insert the bottom stem of the arm into the hole in the table base/bracket.
Insert the plug of the power adapter into the DC connector of the light.
Connect the power supply to a mains socket.
Adjust the locking screw at the upper side of the light as needed.
Switch it on.

2. Adjusting the brightness

It offers a touch sensor, which controls the brightness within 6 levels.

brighter

darker

3. Important for safe use

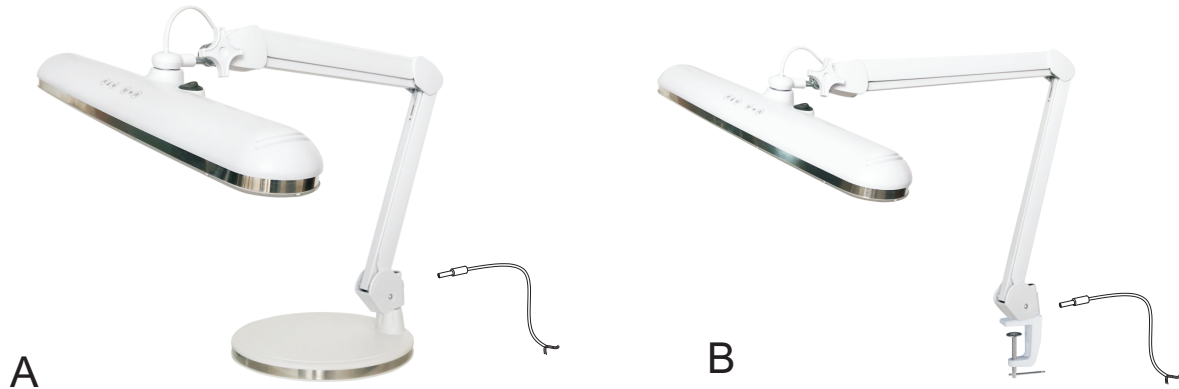

- 1) Indoor use only.
- 2) Environment temperature $-5^{\circ}\text{C}-40^{\circ}\text{C}$.
- 3) Humidity: $\leq 95\%$.
- 4) Never disassemble the light unless you are a qualified electrician.
- 5) Plug must be taken out while repairing the light.

4. If the external flexible cable or cord of this light is damaged,
it shall be exclusively replaced by the manufacturer or his service agent
or a similar qualified person in order to avoid a hazard.

CAUTION: Do not look directly at the light!
