SECTION 1: Identification of the substance or mixture and company/firm

1.1 Identification of product

Commercial name: Blonderator Ultra Premium Bleaching Powder PLEX & Keratin 500g IP (10)

code: 181015

Colour removing treatment for hair. Cosmetic product for professional use

1.2 Relevant uses identified for the substance or mixture and contraindicated uses

Treatment for coloured and colour-removed hair.

Cosmetic product for professional use

1.3 Information on the supplier of the schedule and safety data

Supplier identification:

Imperity Professional Milano Kft.

Balatoni Str. 2/a. B/1., 1112 Budapest, Hungary

Tel./fax: +36-70-311-4806

Responsible for SDS:

Imperity Professional Milano Kft.

Balatoni Str. 2/a. B/1., 1112 Budapest, Hungary

Tel./fax: +36-70-311-4806

E-mail: senior.majerik@imperity.it

1.4 Emergency telephone number

Emergency telephone (07-1520 h): +36 34304414 (CET) on workdays

Health Toxicological Information Service (ETTSZ H-1096 Budapest, Nagyvárad tér 2.)

Tel.: +36 1 476 6464, or +36 80 201 199

SECTION 2: Identification of hazards

2.1. Classification of substance or mixture

2.1.1 Classification according to Regulation (EC) #1272/2008

Solid oxidiser Cat. 3

Irritant to the airways, Cat.1

Acute toxicity, Cat. 4

Skin irritant, Cat. 1

Eye dam, Cat. 1

Skin irritant, Cat. 2

Attention H272: May intensify fire; oxidiser.

Hazard H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Attention H302: Harmful if swallowed.

Attention H317: May cause an allergic skin reaction.

Hazard H318: Causes serious eye damage

Attention H315: Causes skin irritation.

2.2 Labelling elements

GHS03

GHS08

GHS07

GHS05

Warning: Hazard

Hazard indications:

Imperity Professional Milano Ltd.

Adress 1: Viale Monza 347, Milano 20126, Italy

Adress 2: Balatoni Str. 2/a. B/1., 1112 Budapest, Hungary

Phone: +36 70 420-93-83

E-mail : info@imperity.it

Web: www.imperity.it

H272	Can aggravate a fire: oxidiser
H302	Harmful if ingested
H317	Can cause an allergic skin reaction
H334	Can cause allergic or asthma symptoms or difficulty breathing if inhaled.
H318	Causes serious eye damage
H315	Causes skin irritation

Safety recommendations – Prevention:

P210	Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
P220	Keep/store away from clothing/combustible materials.
P221	Take any precaution to avoid mixing with combustibles
P260	Do not breathe dust/fume/gas/mist/vapours/spray.
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.

Imperity Professional Milano Ltd.**Adress 1:** Viale Monza 347, Milano 20126, Italy**Adress 2:** Balatoni Str. 2/a. B/1., 1112 Budapest, Hungary**Phone:** +36 70 420-93-83**E-mail :** info@imperity.it**Web:** www.imperity.it

PROFESSIONAL
IMPERITY
MILANO [®]

P264	Wash affected parts/clothing thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P272	Contaminated work clothing should not be allowed out of the workplace.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P284	In case of inadequate ventilation wear respiratory protection.

Safety recommendations – Reaction:

P301+P312	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P302+P352	IF ON SKIN: Wash with plenty of soap and water.
P304+P340	IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor
P321	Specific treatments: see section 4 clause 4.1 of this safety schedule
P330	Rinse mouth.
P332+P313	If skin irritation occurs: Get medical advice/attention.
P342+P311	If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.
P370+P378	In case of fire, extinguish with suitable agents
P362 + p364	Take off contaminated clothing and wash it before reuse

Safety recommendations – Disposal:

P501	Dispose of the product/vessel in accordance with local regulations.
------	---

SECTION 3: Composition/information on ingredients**3.1 Substances**

Information not relevant

3.2 MixturesType of product and use: Cosmetic mixture for professional use

Hazardous components according to EEC Directive 67/548 and the CLP Regulation and associated classification.

SECTION 4: First aid measures**4.1 Description of first aid measures**

General instructions: If in doubt or when symptoms persist, seek a doctor, keeping the compound's safety schedule available. Do not administer any substance orally to unconscious persons. Remove contaminated clothing immediately.

In case of inhalation: remove the casualty to the open air; if respiration stops or is difficult, perform artificial respiration. Call a doctor immediately.

In case of contact with the skin: remove contaminated clothing and take a shower. Call a doctor immediately. Wash the contaminated clothing separately before reusing.

In case of contact with the eyes: wash immediately and thoroughly with water for at least 15 minutes. If used, remove contact lenses. Consult a doctor immediately.

In case of ingestion: rinse the mouth thoroughly without swallowing. Call a doctor immediately.

4.2 Main symptoms and effects, both acute and delayed

For symptoms and effects due to the content substances see chapter 11.

4.3 Indication of need to consult a doctor immediately and special treatments

Follow the doctor's instructions

SECTION 5: Fire prevention measures**5.1 Fire extinguishers****5.1.1 SUITABLE fireextinguishers**

Suitable fire extinguishers are water, nebulised water, foam. Excess water or nebulised water must be used until completely extinguished.

5.1.2 UNSUITABLE fireextinguishers

none in particular, even if some extinguishers (CO₂-based powders, fluoride derivatives, sand, earth, etc) can be less active as the product contains oxidisers which feed combustion.

5.2 Special hazards deriving from the substance or mixtureHazards due to exposure in case of fire

Avoid respirating combustion products. If involved in a fire the product can produce toxic ammonia gases, sulphur dioxide SO₂ and (sulphurous anhydride) sulphur trioxide SO₃ (sulphuric anhydride).

MILANO®

5.3 Fire extinguishing guidelines for employees

General Information

In case of fire always don complete fire protection equipment.

Equipment

Protective helmet with visor, non-flammable clothing (non-flammable jacket and with bands around the arms, legs and waist), protective gloves (protective against fire, cuts and dielectric discharge), respirator (automatic breathing protection).

Imperity Professional Milano Ltd.

SECTION 6. Accidental spillage measures

6.1. Personal safety, protection devices and procedures in case of emergency.

Remove all sources of ignition (cigarettes, flames, sparks, etc.) from the area where the leakage occurred. Avoid inhaling the dust. Block the leakage if not dangerous to do so. Do not handle damaged containers or leaking product without having first donned the appropriate protection equipment. Remove all persons who are not equipped. For all information regarding risks to the environment and health, protection of the airways, ventilation and personal protection equipment, refer to the other sections of this schedule.

6.2. Environmental precautions.

Prevent the product from entering sewers, surface waters, ground water and confined areas.

6.3. Methods and materials for containment and reinstatement.

Absorb the product with non-combustible material (sand, fabric, powder, aggregate, vermiculite) and place it in a container for removal according to local and national regulations.

6.4. Reference to other sections.

Any information regarding personal protection and disposal is provided in section 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling.

Do not smoke when handling and using. Avoid contact with the skin and eyes, inhalation of vapour and mist.

Neither eat nor drink during work.

Do not create dust while working with the product. Thorough operational removal of dust and ventilation/aspiration in work places. Adopt measures against electrostatic discharge.

7.2. Conditions for safe storage, including any incompatibilities.

Locate in dry and aerated places. Avoid excessively high temperatures (over 30°C) Avoid contamination with reducing agents such as lotions, permanent or straightening. Do not store after having added other substances such as developers and lightening lotions (the containers could break). Avoid contact with moist organic materials, such as paper towels, wood, clothing, etc, avoid discarding product residues in the waste, spontaneous combustion could occur. **Protect from heat and the sun's rays; store away from rain and moisture and never outside.**

7.3. Final specific uses.

Information not available.

For transport, storage and handling, only use appropriate materials.

SECTION 8: Control of exposure/personal protection

8.1. Control parameters

Potassium Persulfate: T.L.V.-T.W.A.(ACGIH 2003) 0.1mg/m³

Ammonium Persulfate: T.L.V.-T.W.A. 0.1mg/m³

Sodium Persulfate: T.L.V.-T.W.A. (ACGIH 2003) 0.1mg/m³

Sodium silicate: T.L.V.-T.W.A.(supplier) 2mg/m³

Mineral Oil: T.L.V.-T.W.A. (supplier) 5mg/m³

8.2. Control of exposure

Considering that using the appropriate technical measures should always have priority over personal Protection equipment, ensure good ventilation in the work place via effective local aspiration or exhaust Air discharge.

Protection of the hands

Protect the hands with category I work gloves (ref. Directive 89/686/EEC and standard EN 374) such as latex, PVC or equivalent. When deciding on the material for the work gloves, the following should be considered: degradation, breakage and permeation time. The resistance of the gloves should be verified before the use of compound products as it is not predictable. Gloves have a wear time that depends on the duration of exposure.

Imperity Professional Milano Ltd.

Adress 1: Viale Monza 347, Milano 20126, Italy

Adress 2: Balatoni Str. 2/a. B/1., 1112 Budapest, Hungary

Phone: +36 70 420-93-83

E-mail : info@imperity.it

Web: www.imperity.it

PROFESSIONAL
IMPERITY
MILANO®

Protection of the skin

Don work clothes with long sleeves and safety footwear for professional use of category I (ref. Directive 89/686/EEC and standard EN 344). Wash with soap and water after having removed the protective clothing.

Respiratory protection

If exceeding the threshold value of one or more substances in the compound, refer to the daily exposure in the work environment or to a value set out by the company prevention and protection service, don a mask with type B or universal type filter of a class (1, 2 or 3) selected in relation to the usage concentration limit (ref. Standard EN 141). The use of equipment for protecting the respiratory system, such as paper masks for organic vapours and for dust/mist, is necessary in the absence of technical measures to limit the worker's exposure. The protection offered by masks is however limited. If the substance considered is odourless or its olfactory threshold exceeds the associated exposure limit and in the case of emergency, or when the exposure levels are unknown or the concentration of oxygen in the work environment is less than 17% in volume, don an open circuit compressed air respirator (ref. Standard EN 137) or external air respirator with complete mask, half mask or mouthpiece (ref. Standard EN 138).

Protection of the eyes

It is recommended to don hermetic protective eyewear (ref. Standard EN 166)

SECTION 9: Physical and chemical properties

9.1. Information on the essential physical and chemical properties

Important data for safety

Aspect: Homogenous powder

Colour: Violet

Odour: Characteristic

PH (water solution): 10.50-11.50

Persulfate ions content (% expressed %S₂O₈²⁻): 25,5-31,5

Water solubility: partially soluble

Vapour density: Information not available

Decomposition temperature: data not available

Auto-inflammability: data not available

Ignition point: data not available

Inflammability (solids, gases): data not available

Lower explosion limit: data not available

Upper explosion limit: data not available

Explosive properties: data not available

Vapour pressure (20° C): data not available

Odour threshold: data not available

Evaporation rate: data not available

Oxidative properties: data not available

SECTION 10: Stability and reactivity

10.1. Reactivity.

The product does not decompose if used according to standards. The product is stable in safety conditions up to around 65° C; above this temperature it gradually begins to decay, releasing small quantities of oxygen and ammonia. Above 150° C the rate of decay becomes rapid and self-accelerating with the release of oxygen, which can lead to fire.

Humidity is an extremely important factor as uncontrolled and unstable humidity can lower the decay temperature considerably.

10.2. Chemical stability.

See the above paragraph.

10.3. Potential for hazardous reactions.

See section 10.1.

10.4. Conditions to be avoided.

High temperatures, high humidity, electrostatic charges. Do not subject the product to friction and impacts.

10.5. Incompatible materials.

SECTION 11: Toxicological information

11.1. Information on the toxicological effects

Toxicological information regarding the mixture:

the data indicated refer to the hazardous raw materials contained within the product.

The product contains ingredients that could be harmful to health. These components are irritant to the skin and the mucous membranes of the eyes and the respiratory system. They could stimulate asthma attacks in sensitive individuals, could cause a sensitivity reaction in the skin and respiratory hypersensitisation.

Effects due to chronic exposure: this mixture has not been tested for the effects of chronic exposure according to the OHSA Hazard Communication Standard.

Target organs: skin, respiratory system.

Routes of ingress: inhalation, ingestion and the skin.

The general medical conditions, aggravated by exposure, will be related to the primary toxic (pharmacological) effect of the substance; any pre-existent dermatitis could deteriorate through the present of a skin irritant, as also bronchitis could be aggravated by the dust in the air.

Harmful for ingestion: Ingestion can cause gastrointestinal irritation, nausea, vomiting and diarrhoea.

Further information: the damage to health under normal use is unknown and unpredictable.

11.2 Toxicological information regarding the raw material content

<u>Potassium Persulfate:</u>	LD50	rat, oral 700 mg/kg rat, inhalation >2.95mg/l/4h rat, cutaneous >2000mg/Kg
<u>Ammonium Persulfate:</u>	LD50	rat, oral 700 mg/kg rat, inhalation >2.95mg/l/4h rat, cutaneous >2000mg/Kg
<u>Sodium Persulfate</u>	LD50	rat, oral 700 mg/kg rat, inhalation >2.95mg/l/4h rat, cutaneous >2000mg/Kg
<u>Disodium EDTA:</u>	LD50	rat, oral 1780 – 2000mg/Kg Rat, inhalation 1- 5 mg/l/6h
<u>Sodium Lauryl Sulfate:</u>	LD50	rat, oral 300 – 2000mg/Kg
<u>Mineral Oil</u>	LD50	rat, oral >5000 mg/Kg
<u>Sodium Silicate:</u>	LD50	rat, oral 300-2,000 mg/Kg

SECTION 12: Ecological information

Use according to good working practices, avoiding discarding the product in the environment. Notify the competent authorities if the product has entered water courses or sewers or has contaminated the soil or vegetation.

12.1. Toxicity

N.A.

12.2. Persistence and degradability

N.A. The substance is biodegradable. Not persistent

12.3. Bioaccumulation potential

N.A. Does not bioaccumulate.

12.4. Soil mobility

N.A. No specific information is available on this product

12.5. Results of PBT and vPvB evaluation

vPvB substances: Nil – PBT substances: None

SECTION 13: Considerations on disposal

13.1. Methods of waste treatment

Do not dispose the product together with domestic waste. Do not dispose in the sewers. Send to authorised disposal plants, refer to Legislative decree 22/97 as amended.

Packaging contaminants

Packaging contaminants must be sent for recycling or disposal according to the national waste management regulations.

SECTION 14. Information on transport

14.1 UN number

UN 3215

14.2 UN number shipment name

PERSULPHATES, INORGANIC NOS

14.3 Classes of hazard associated with transport

Road/rail transport (ADR/RID-GGVS/E)

– Class 5.1 substances with an inflammable effect
– Packaging group III

– Correct technical name: PERSULPHATES, INORGANIC, N.O.S. (Potassium persulfate and Ammonium persulfate) Exemptions from transport under ADR: for limited quantities. Exemption from transport under ADR for the product packaged in a container less than 5 kg and secondary container less than 30 kg, up to 1 ton.

Maritime transport (IMO/IMDG)

– IMDG Class 5.1
– Packaging group III
– EmS number F-A, S-Q
– Correct technical name: PERSULPHATES, INORGANIC, N.O.S. (Potassium persulfate and Ammonium persulfate)
Not marine polluting

Air transport (ICAO-TI/IATA-DGR)

– ICAO/IATA Class 5.1
– Packaging group III
– Correct technical name: PERSULPHATES, INORGANIC, N.O.S. (Potassium persulfate and Ammonium persulfate)

SECTION 15. Information on regulation

15.1 Standards and legislation on health, safety and environment specific to the substance or mixture

National provisions

Italy: Legislative decree 81/2008 (Consolidating text on health and safety in work places) as amended, and

Directive

2009/161/EU – chemical risk assessment pursuant to heading IX

Hazard classes for water

Class: 1 Classification in accordance with VwVwS

Legislative decree no. 52 of 3/2/1997 (Classification, packaging and labelling of hazardous substances) Legislative decree no. 65

of 14/3/2003 (Classification, packaging and labelling of hazardous compounds) Legislative decree no. 81 of 9/4/2008

Decree of the Ministry of Labour of 26/02/2004 (Limits of working

exposure) Ministry Decree of 03/04/2007 (Enactment of directive no. 2006/8/EC)

International regulations

Directive 65/548/EEC (Classification, packaging and labelling of hazardous substances) as amended. Directive 1999/45/EC

(Classification, packaging and labelling of hazardous substances) as amended. Regulation no. 1907/2006/EC (REACH).

Regulation no. 1272/2008/EC (CLP).

Regulation no. 790/2009/EC (ATP 1 CLP amending, for adapting to technical and scientific progress, the ATP of

Regulation no. 1272/2008/EC). Regulation (EU) no. 830/2015

Restrictions regarding the product or its content substances based on Annex XII of Regulation

(EC) 1907/2006 (REACH) as amended

Where applicable, reference is made to the following regulations:

Ministerial circulars 46 and 61 (Aromatic amines).

Legislative decree no. 238 of 21 September 2005 (Seveso III Directive)

EC Regulation no. 648/2004 (Detergents).

Decree law no. 152 of 3/4/2006 Environmental regulations

SECTION 16. Other information

Additional indications

Text of the Hazard recommendations (H) referred to in sections 2-3 of the schedule:

Flam. Liq. 3 flammable liquids, category 3

Sol. Ox. 3 Solid oxidiser, category 3

Acute Tox. 2, Acute toxicity, category 2

Acute Tox. 4 Acute toxicity, category 4

Eye Irrit. 2 Eye irritation, category 2

Eye Dam. 1 Eye damage, category 1

Skin Irrit. 2 Skin irritation, category 2

Skin Sens. 1 Skin sensitisation, category 1

Resp. Sens. 1 Respiratory sensitisation, category 1

STOT SE 3 Specific toxicity by target organ – single exposure, category 3

Aquatic Chronic 2 Long-Term Aquatic Hazard, Chronic 2

H226 Flammable liquid and vapour

H272 Can aggravate a fire; oxidiser.

H302 Harmful if ingested.

H304 May be fatal if swallowed and enters airways

H315 Causes skin irritation

H318 Causes serious eye damage

H317 Can cause an allergic skin reaction.

H319 Causes severe eye irritation.

H332 Harmful if inhaled

H334 Can cause allergic or asthma symptoms or difficulty breathing if inhaled.

NOEL: No Observed Effect Level

NOEC: No Observed Effect Concentration

LOEC: Lowest Observed Effect Concentration (Maximum concentration at which it is possible to observe an effect)

DNEL: Derived No Effect Level

DMEL: Derived Minimum Effect Level

CLP: Classification, Labelling and Packaging

CSR: Chemical Safety Report

LD (0/50/100): Lethal Dose 0/50/100 (Lethal dose per 0/50/100% of individuals)

IATA: International Air Transport Association

ICAO: International Civil Aviation Organization

IMDG code: International Maritime Dangerous Goods code

PBT: Persistent, bioaccumulative and toxic

RID: Règlement concernant le transport International ferroviaire des marchandises Dangereuses (Regulation on international transport of dangerous goods by rail)

STEL: Short term exposure limit

TLV: Threshold limit value

TWA: Time Weighted Average

UE: European Union

Imperity Professional Milano Ltd.

Adress 1: Viale Monza 347, Milano 20126, Italy

Adress 2: Balatoni Str. 2/a. B/1., 1112 Budapest, Hungary

Phone: +36 70 420-93-83

E-mail : info@imperity.it

PNOS: Particulates not Otherwise Specified BOD: Biochemical Oxygen Demand

COD: Chemical Oxygen Demand

BCF: BioConcentration Factor

TRGS : Technische Regeln für Gefahrstoffe -Technical Rules for Hazardous Substances, defined by The Federal Institute for Occupational Safety and Health, Germany

LCLo: Lethal Concentration Low (minimum lethal

concentration) ThOD: Theoretical Oxygen Demand
