2. COMPOSITION / INFORMATION ON INGREDIENTS :

Product description

Emulsions with paraffin, fatty alcohols and scrub agents used to perform a scrub effect on the skin after hair colouring treatments

3. HAZARDS IDENTIFICATION

Information concerning:

The continuous exposure for professional reasons to detergent agents as (soap – shampoo – liquid detergents) might cause a gradual impoverishment of the hydrolipidic mantle as well as the horny layer of epidermis.

The impoverishment of this barrier being more exposed towards external agents might be the cause of skin lesions.

In this conditions the manipulation of other substances, normally used during the practise of the profession done without the proper precautions may cause an allergy that in the long run could bring to more serious irritation forms.
