PROPYLENE GLYCOL/AQUA/LINUM USITATISSIMUM SEED EXTRACT	0 - 0,1
PEG-12 DIMETHICONE	0 - 0,1
ARGANIA SPINOSA KERNEL OIL	0 - 0,1

This formula specifies the types of ingredients and their maximum concentrations, allowing the rapid identification of the product.

3. HAZARDS IDENTIFICATION

When used according to the manufacturer's instructions, the product is safe for humans and the environment. The following information is relevant in the case of misuse or accident:

The 95% by mass of the contents are flammable. The container exposed to a temperature over than 50 °c may deform and burst even if it contains a small residual gas.

The contact of product with eyes may cause eye irritation.

Use according to good working practices, avoiding waste in the environment and overuse.

Use only in well-ventilated areas. Avoid inhalation.

4. FIRST AID MEASURES

General:

In all cases of doubt, or when symptoms persist, contact a physician immediately.

Accidental contact of product with eyes: Remove contact lenses, wash with running water for several minutes, holding the eyelids open. If you experience harmful symptoms, contact a physician immediately.

Unintentional ingestion of large amounts: Do not induce vomiting unless authorized by medical personnel.

Never give anything by mouth if victim is unconscious.

5. FIRE-FIGHTING MEASURES

In case of fire use CO₂, powder or water spray.

The aerosol container overheated deform, break and can be thrown a considerable distance.

Use a protective helmet before approaching the fire. Exposure to combustion gases can be hazardous to your health, use a mask against the fumes and vapors.

6. ACCIDENTAL RELEASE MEASURES

Eliminate sources of ignition and ventilate the area. Collect spillage with sand, sawdust or rags, pump in suitable containers for disposal according to local regulations. Wash contaminated areas with plenty of water. Never return spilled product in the original container. Never reuse the spilled product.

Environmental precautions

Limit leakages with earth or sand.

If the product has escaped into a water course, into the drainage system, or has contaminated the ground or vegetation, notify the competent authorities.

7. HANDLING AND STORAGE

Handling:

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Keep out of the reach of children.

Storage:

Protect from sunlight and do not expose to temperatures exceeding 50 ° C.

Keep away from sources of ignition.

Keep out of the reach of children.

Store in a dry and well ventilated. Protect from frost.

Keep the containers in upright position and secure avoiding the possibility of falls or collisions.
Keep away from oxidizing agents, strongly acidic or alkaline.

8. PERSONAL PROTECTION / EXPOSURE CONTROLS

In the event that the Employer identifies risks cannot be avoided by other means, it is required to make available to workers adequate Personal Protective Equipment (PPE) (art. 77 Legislative Decree no. 81/08). PPE must comply with the rules laid down in Legislative Decree no. 475/92 (Article 76 of Legislative Decree no. 81/08).

The use of PPE provided by the Employer is required (Articles 20 and 28 of Legislative Decree no. 81/08). The workplace must be adequately ventilated. Where possible, install sources of local exhaust ventilation and effective system of general extraction. If these measures are not sufficient to maintain concentrations of particulates and solvent vapors below the exposure limit, they will need to make use of appropriate respiratory protection.

9. PHYSICAL AND CHEMICAL PROPERTY

Appearance: Pressure vessel with base and liquefied gas

Odor: Characteristic

Flash point of the propellant: less than 0 ° C

Flash point of the base: not flammable

Pressure at 20 ° C: 4 - 4.5 bar

Self-ignition propellant temperature: 405 ° C

Lower explosion limit the propellant: 1.8%

Water solubility of the base: complete

10. STABILITY AND REACTIVITY

Stable product at room temperature.

Keep away from oxidizing agents or chemicals strongly acid or base so as to avoid corrosion of the container.

Aerosol containers overheated to a temperature above 50 ° C may be deformed, burst and be projected to a considerable distance.

Protect from frost.

11. TRANSPORT INFORMATION

UN NUMBER: UN 1950

UN PROPER SHIPPING NAME: FLAMMABLE AEROSOL

CLASS: 2

LABEL: 2.1

PACKING GROUP: -

RESTRICTION CODE IN GALLERY: D

ADR exemption because compliance with the following characteristics:

Combination packaging: per inner packaging 1 L per package 30 Kg

Inner packaging placed in shrink-wrapped or stretch-wrapped trays: per inner packaging 1 L per package 20 Kg

12. DISPOSAL INFORMATION

With regard to the disposal of cosmetic products, the relevant legislation is the Legislative Decree no. 152/2006 and subsequent amendments.

13. REGULATORY INFORMATION

The finished cosmetic products are manufactured and marketed in accordance with Regulation 1223/2009 and subsequent changes.

Finished cosmetic products are specifically excluded from the scope of the national and Community legislation on dangerous preparations.

14. OTHER INFORMATION

Read carefully the instructions on the packaging and / or on the product package insert.

This information reflects the current state of our knowledge. All of the information in the sheet covering the composition and physical and chemical properties are provided solely for manipulation, and operation of the product and for any intervention in case of emergency. They do not indicate the complete composition of the product or represent any technical information.
