---

#### DISPOSAL

Dispose in accordance with the valid regulations. Gloves contaminated with chemical substances must be disposed of in accordance with the regulations for the relevant chemicals.

---

#### NOTICES

Glove length is appropriate to the use where the risk is minimal to the wrist area.

**Usage:** The product needs to be checked for the correct size and suitability with regard to its intended use. Before use check for damage and do not use damaged or unsuitable gloves. The gloves are intended for single use only and shall be disposed on a regular basis.

**Caution:** The product may cause allergic reactions on sensitive people. Particular caution must be exercised if the user has any known or suspected hypersensitivity.

The information above are to be considered as typical values in the standard version based on the manufacturer's information. Subject to modification.

The gloves shall only be used for its intended purpose. If needed we're glad to support you with further details.
